As We Create a Healing Sanctuary thru Story & Song
To Honor Our Dearly Departed working with us from the Spiritual World**

*"Feel how we gaze lovingly into heights that now call you to other work.
May your power reach out from spirit-realms to the friends you left behind.*

*Hear our soul's request sent to you in confidence;
We need here, for our earthly work, strong power from spirit lands-
We thank our friends now dead for this.*

*A hope that makes us happy, a loss that pains us deeply:
Let us hope that you light our lives, far-and-near, un-lost,
A soul-star in the spiritual firmament." ~Rudolf Steiner*
